The Eurocentres Canada Pathway Program

Eurocentres Canada Pathway Program Overview

The Eurocentres Pathway Program is your springboard to Canadian colleges and universities. Our program prepares students for post-secondary study and is customized to the needs of each individual learner. From the moment you book your course with us we offer you personalized and individual attention and provide you with a coordinator, all of which will ensure your success and provide you with the foundation and skills needed for a brighter future. Most of our partner institutions recognize Eurocentres levels, eliminating the need for an entry exam such as IELTS, TOEIC or TOEFL.

English Language Studies

Our Pathway Program teaches all the specific skills that post-secondary students should have at their disposal. Throughout your course you will practice note-taking, summarize lectures, build research and presentation techniques and develop academic familiarity. In addition to academic skills, our classes offer the perfect balance of all basic English skills from vocabulary and writing to speaking and reading. Our system is highly regarded, and upon successful completion of our Pathway Program you will gain seamless entry to one of our 16 partner universities and colleges.

Post-Secondary Studies

Choosing the course that best fits your educational and geographical needs is just as important as developing your English skills. Our partner institutions offer the flexibility of certificates and diplomas, in addition to undergraduate and post-graduate degrees, in a variety of academic fields. You will find the perfect campus to suit your preferences at one of our diverse partner institutions, located across Canada and the United States.

Conditional Letter of Acceptance

You will receive a conditional letter of acceptance from the partner post-secondary institution of your choice upon registration in our Pathway Program.

Work Opportunities in Canada

While studying at one of our pathway program partner schools, you will be able to work on or off campus for up to 20 hours per week during the academic session and full-time during scheduled breaks. Upon graduation, you will have the opportunity to gain valuable Canadian work experience through the Post-Graduation Work Permit Program. This program allows you to work in Canada for up to a maximum of 3 years based on the official length of your program.

Pathway Program Coordinator

We have a dedicated Pathway Coordinator on staff to help pathway students and their overseas advisors by providing necessary support through the enrolment process and helping students choose the right university or college. Once students start the program, the Coordinator meets with them regularly to check on progress and respond to concerns or questions and to provide updates. Your Pathway Coordinator also acts as a liaison between students and our partner institutions, ensuring that you are well prepared for post-secondary studies at the end of your English courses. With thorough knowledge of our partner institutions' programs and requirements, our Pathway Coordinator ensures all details are taken care of and information is passed on accurately and efficiently.

Connected with your Pathway Institution

At Eurocentres, we want to ensure that you become familiar with the programs and policies of your college or university. Your Pathway Coordinator will keep you feeling confident and in control by connecting you with your college or university from the onset of your English studies. This could include campus tours and presentations by visiting representatives.

Specialized Electives

Fluency

Our Fluency elective focuses on listening and speaking through communicative practice and reinforcement. Presentations, project work and cooperative tasks are used to further develop confidence in spoken English.

Business English

Our Business English curriculum combines the best in academic business knowledge with practice for everyday business situations. Group and individual work and case studies are used to simulate a business environment.

Academic Writing & Speaking

This class focuses specifically on writing and speaking for academic purposes. From writing comprehensive reports to giving oral presentations, this class will help you prepare for university- or college-level English classes.

Academic Reading & Writing

This class is also structured to help prepare students for university or college, but the focus here is on reading and writing. Students will practice writing formal essays and will read and analyze both fiction and non-fiction pieces.

Exam Skills

Our Exam Skills class will help students prepare for English proficiency tests such as IELTS, Cambridge (FCE and CAE) and TOEFL. Practice tests are used to give students extensive preparation in all aspects of these tests.

The Eurocentres Success System

Eurocentres Success System

The innovative Eurocentres Success System has been developed over the last 60 years. Eurocentres is a leader in foreign language training and is frequently consulted by the European Council on matters of language development. Eurocentres is focused at all times on language learning success. Our longstanding experience has shown that the greatest progress is made when students are supported individually and given feedback regarding their strengths and weaknesses. In today's heavily specialized world, we recognize that it is also important to focus attention on specific personal, academic and business needs.

We know that in order for you to reach your goals, you need to have flexible choices and support from teachers and counsellors. The Eurocentres Success System was created as a result of our vast experience and dedication to excellence. It is based on a personalized and specialized approach, providing individual attention while focusing on areas important to you.

Personalization

- Level test and personal interview upon arrival
- Personal feedback and recommendations for self-study
- Small class sizes (max. 14 students)
- Continuous monitoring of learning progress and diagnostic feedback
- Weekly one-to-one counselling
- Weekly tests, revision lessons and self-study recommendations
- 2 lessons per week in Learning Centre/Computer Lab
- Optional Study Club for focused attention on individual needs
- Final Certificate accurately describing language ability in all areas

Specialization

- Exam Preparation: Cambridge, TOEFL, IELTS, TOEIC
- Business English
- Academic Writing & Speaking
- Academic Reading & Writing
- General English Language Activation (Fluency)

Our Locations

Vancouver

Eurocentres Vancouver is conveniently located in the heart of the city's business district, only a few minutes away from an abundance of shops, restaurants and all major transit services. Our fully-equipped, modern facility includes large, bright classrooms, a Learning Centre, a Computer Lab, a rooftop courtyard, a games room and a student lounge with additional computers and vending machines.

Eurocentres Vancouver

Toronto

Eurocentres Toronto is located in the city's entertainment district, close to the CN Tower and Rogers Centre and a short walk from an abundance of shops, restaurants, theatres, night clubs and all major transit services. Our Toronto facilities include large, comfortable classrooms, a Learning Centre, a Computer Lab and a student lounge with additional computers, vending machines and a foosball table.

Eurocentres Toronto

Transfer Between Schools

With sufficient notice, students can transfer between the Eurocentres Canada schools. Courses will be transferred on a pro-rata basis for an equivalent course. Students wishing to transfer between our Vancouver and Toronto schools must provide four weeks' notice prior to transfer. Transfers are subject to course availability and an administrative change fee. If homestay is also needed, students will be required to pay an additional accommodation placement fee.

Eurocentres Canada

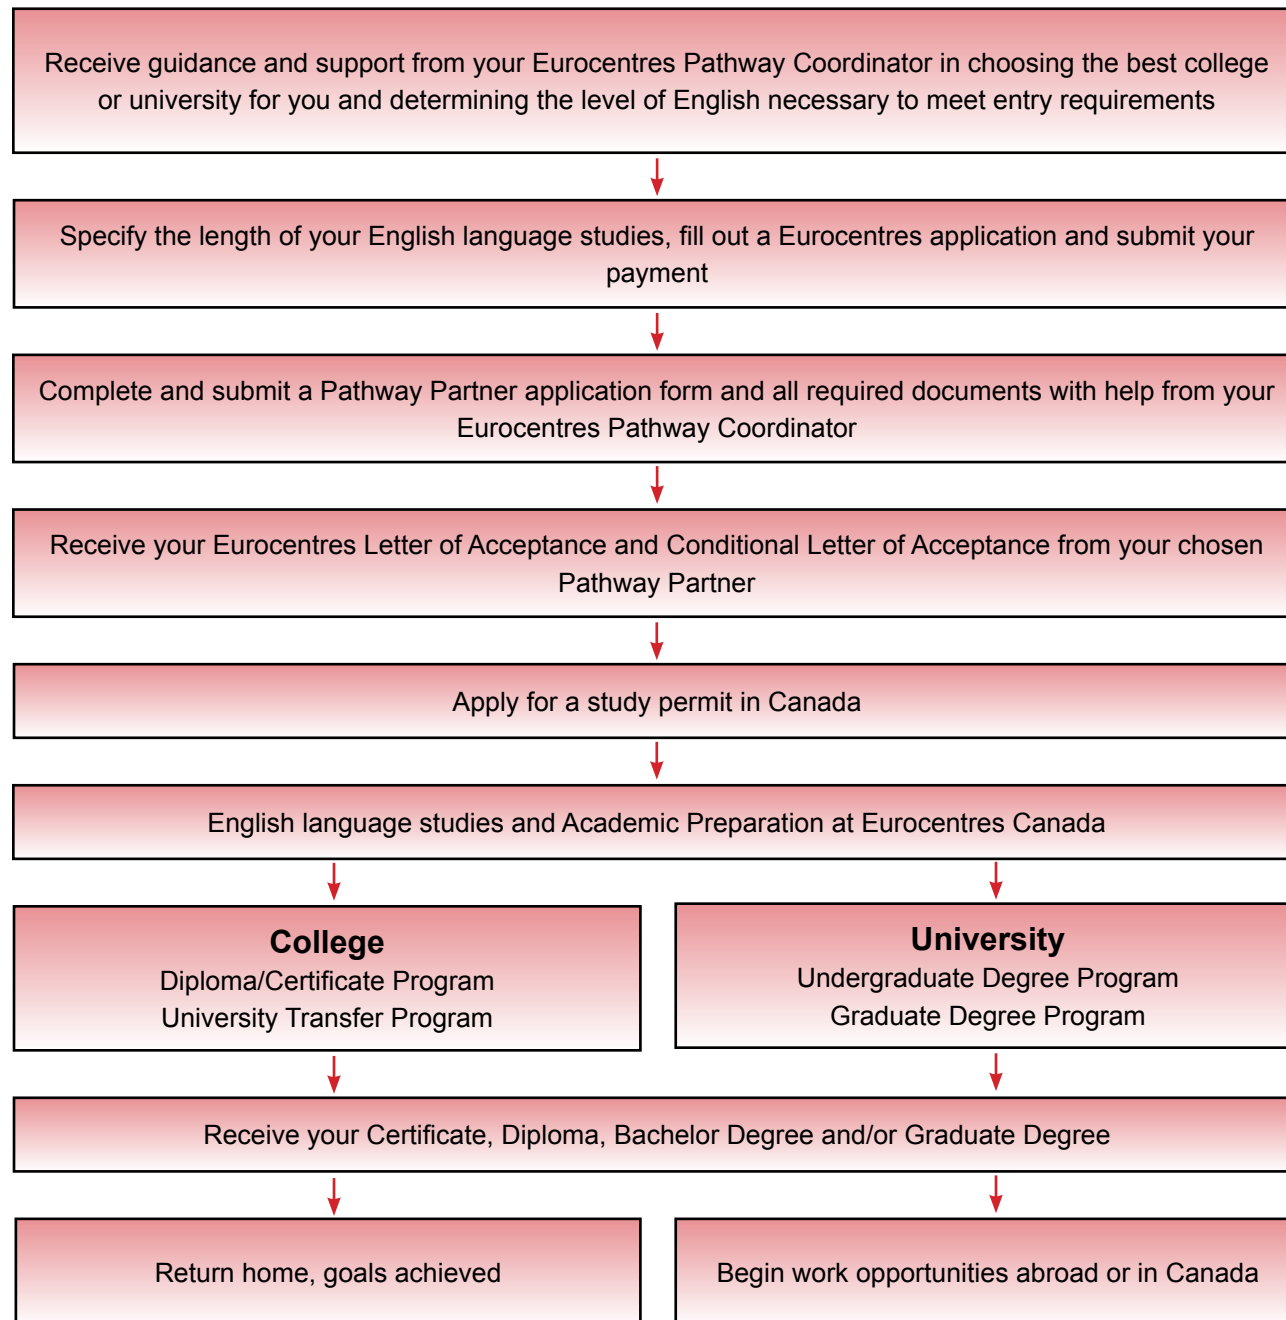

Eurocentres Vancouver and Eurocentres Toronto are owned and operated by Vancouver Maple Leaf Language College Inc., a wholly owned subsidiary of ISIS Education.

Exceptional Quality & Recognition

Eurocentres Canada is recognized internationally for providing excellence in English language training in Canada since 1990. In addition to full accreditation by Languages Canada, Eurocentres Canada undergoes regular internal audits, has been awarded the British Columbia Education Quality Assurance designation and is approved by the British Columbia Council for International Education. The schools are also authorized to use the Imagine Education au/in Canada brand.

Application Process

College

- Receive a two- or three-year diploma or a one-year certificate for full-time study at one of our partner colleges.
- College programs are job-oriented and offer practical, hands-on training.
- Colleges offer Co-op Programs in many fields of study. These programs allow students to study for two semesters and work in the third semester of study while receiving payment from their internship placement.
- Colleges also offer trades, apprenticeship training and skills upgrading.
- Some popular programs are International Business, Business Administration, Accounting, Graphic Design, IT Programs, Computer Science and Hospitality Programs.
- Our colleges have partnerships with universities, making them the perfect place to start your post-secondary education. Students can usually transfer to a university degree program in their third year.

University

- Universities grant degrees and certificates (i.e. Bachelor's Degrees, Master's Degrees, Doctoral Degrees, Teaching Certificates) in a wide range of academic areas.
- Undergraduate degrees can be three- or four-year programs in a variety of disciplines such as Arts, Sciences, Commerce, etc.
- An Honours Bachelor's Degree in any field takes four years to complete and may be necessary for students interested in going on to do a graduate program such as a Master's or Doctoral Degree.
- Many universities offer double majors, allowing you to broaden your field of study. For example, a student might do a Bachelor's of Science Degree with a double major in Chemistry and Biology.
- Universities offer degrees for professional careers with a solid foundation in theory. Students wishing to work in fields such as Medicine, Law or Engineering must complete university degrees.

Campus Life

Attending one of our partner universities will give you the chance to truly experience the life of a typical Canadian university student. University life in Canada is as dynamic and interesting as you want it to be. After your classes, you can take full advantage of the diverse extra-curricular activities the schools have to offer. This could include joining a social club based on your interests or enjoying the fantastic facilities found on-campus, such as a gym or swimming pool. As we have a large number of partner institutions to choose from, you can also take full advantage of life outside the school in the environment that you feel most comfortable in. This may involve touring the city of your choice, relaxing in a small town or exploring the nature on your doorstep. There will also be plenty of opportunities to use your English abilities in the real world, allowing you to continue to improve your English language skills in authentic situations.

Study Permits

Pathway Program students will require a study permit. For information on Canada Study Permits, visit:

www.cic.gc.ca/english/information/offices/missions.asp

Medical Insurance

StudentGuard medical insurance can be purchased through Eurocentres Canada at the time of registration or upon arrival. All students must have adequate medical coverage for their study period.
