Positive Learning Environment

Student Satisfaction

- Student satisfaction throughout the course is of the utmost importance
- A satisfied student will be a successful student
- We perform the following checks during a student's stay:

First Week

- Teachers speak with each student privately to ensure that he or she is satisfied with the course, school and accommodation and to give them a First Week Questionnaire

Mid Course

- Students receive a second questionnaire about all aspects of their experience so that they may comment on their progress

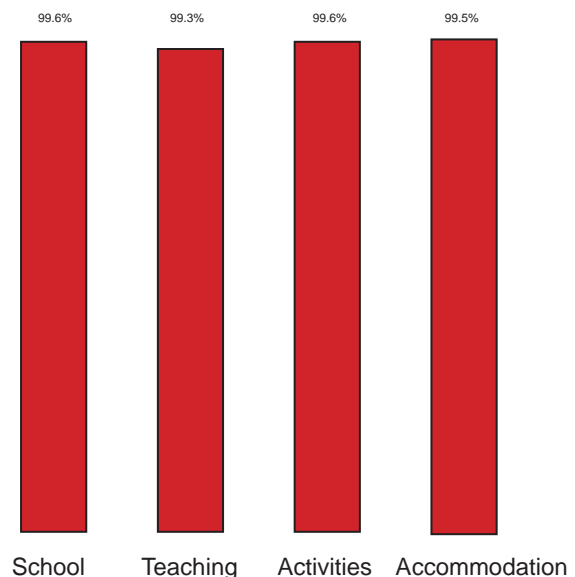

Final Week

- Students receive a detailed questionnaire at the end of the course

Client Satisfaction

- Students complete questionnaires about major topic areas (school, teaching, social activities and accommodation)
- Eurocentres Vancouver and Toronto are always top-rated Eurocentres schools

Highly Qualified Teachers & Academics System

Qualifications

Program Overview

Our Junior Summer Program is designed to teach useful English skills while enabling students to understand and appreciate all aspects of Canadian life.

It is a fully inclusive program of on-site activities including talent shows and sports along with excursions to places of cultural importance. The activity and cultural aspect of our courses is as important as the English lessons, and we work hard to encourage learning outside the classrooms. Safety and welfare are at the forefront of all we do — from choosing our campuses and recruiting our staff to designing and delivering our program.

Academic Program

We recently introduced a new syllabus to meet the special demands of short summer courses. Lessons aim to increase confidence in English communication through age-appropriate topics and activities. Practical language is presented in context to show how English is used in the real world.

Students are given a comprehensive placement test on their first day to ensure they are placed in the appropriate level.

Vancouver
